### About the ENGEN Member Care Programme

The Engen Member Care Programme is a voluntary outpatient programme designed to coordinate the care of a selected group of members with complex medical conditions.

The Programme aims to provide high quality, planned, person-centred care and chronic condition management. Through the Member Care Programme, we aim to improve the quality, continuity and efficiency of care by:

- Collaborating with relevant healthcare professionals
- Helping you to get a better understanding of how to manage your conditions
- Assisting you with navigating your specific benefits

### Treatment Journey

An example of a patient's treatment plan may include:

- Reviewing of the patient's needs and necessary healthcare treatment required
- Providing information about medication, disease control and applicable risk factors
- Assessment and recommendations around the functional needs of the patient
- Coaching the patient and/or their family on the appropriate support for their unique needs
- Sharing clinical information with all relevant treating healthcare professionals

**The treatment will be provided in the most appropriate setting following discussions with all relevant parties**

### Participation in the Member Care Programme is voluntary

To be part of the Engen Member Care Programme, you need to provide us with verbal consent during the enrolment call. This consent allows us to support you throughout the Programme and to access and share your personal and medical information with your healthcare professionals as needed. By providing consent you agree to actively participate and follow the provisions of the Programme.

To help you make the most of the benefits offered on the Member Care Programme, a Clinical Care Specialist (Nurse) will be assigned to you.

There is no cost to the Programme and your monthly contributions remain unaffected. This Programme will be active for a duration of 6 months after which you will automatically be unenrolled. Should you require further assistance thereafter, an extension of enrolment may be reviewed upon receipt of an emailed request from you.

You may opt to withdraw from the Programme before the 6-month period lapses (with no penalties) by sending an email with your request to [MCP@engenmed.co.za](mailto:MCP@engenmed.co.za)

### **POPIA information**

The consent will be explained to you in a language you understand and are comfortable with.

You will be given the chance to ask questions until you feel that all your questions have been answered to your satisfaction.

### **This consent will not affect routine benefits or the payment of unrelated accounts**

As your condition changes, we may introduce other treatment options that are necessary to maintain ongoing wellness.

To provide you with the best possible service, the Fund may obtain information and results from treating healthcare professional, and hospitals. We may need to share this information with the relevant healthcare professionals to ensure ongoing appropriate care on the Programme.

### **Your information will always be kept confidential**

You have the right to access this information, to request that it be rectified if any inaccuracies exist, and to withdraw your consent at any time. You can do so by emailing to [MCP@engenmed.co.za](mailto:MCP@engenmed.co.za)
